

When can you return to school?

HCP Gives Alternate Diagnosis: If HCP provides a diagnosis of a known chronic condition or a confirmed acute illness AND COVID-19 is not suspected, then a note signed by HCP explaining the alternate diagnosis is required before returning. May return to school according to guidelines for that diagnosis.

OR

Negative COVID-19 Test Result: May return to school with a note from HCP stating test was negative OR a copy of negative test result if symptoms are improving AND they are fever-free for at least 24 hours.

If person has not been tested or seen by HCP: Home for at least 10 days since first symptom, fever-free for at least 72 hours, AND symptoms improving.

* International travel or travel to a restricted state (<https://coronavirus.health.ny.gov/covid-19-travel-advisory>)

** Exposure refers to having direct contact of a person who tested positive with COVID-19.
